style through technology

 **Smiths Briten**
a fresh approach to beautiful bathrooms

CARYSIL

The **minerva**® floating vanity is available in multiple sizes and décors, along with the shower and shower screen, as part of the Carysil bathroom offering.

introducing metrowall...

Luxurious and durable waterproof panelling, manufactured using state-of-the-art technology.

Available in many modern and traditional finishes, you'll be able to do away with tiles and have a perfect performance with a robust finish.

With a lifetime warranty against manufacturing defects, you can be reassured on quality while choosing style.

With three finishes to suit any style of home, you're spoiled for choice with **metrowall**. They're easy to install and suitable for lots of different uses – including bathrooms, wet rooms, shower rooms and utilities.

Take a look through our brochure and pick your favourite look. They're so easy to install and maintain, the hardest part is choosing!

The Carysil Group are synonymous with quality kitchen and bathroom products for the home.

style through technology

our newest range

metrowall wall panelling is 100% waterproof, making it ideal for anywhere in the house you might have used tiles.

It's so easy and quick to install and maintain, you'll be glad you chose technology over tradition.

The smooth clean finish looks incredible and will last for years. **metrowall** comes in a variety of colours and finishes to make your style come to life.

metrowall - Slate.

The **minerva**® floating vanity is available in multiple sizes and décors as part of the Carysil bathroom offering.

metrowall

01 gloss

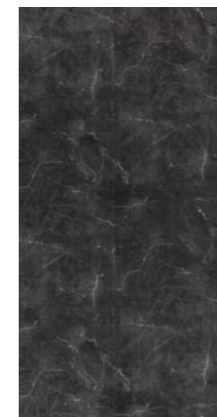

The four décors selected in this finish truly benefit from the depth and glow that only a gloss surface can offer.

Choose from the dark statements made by Bardiglio and Slate or the more subtle designs of Porcelain and Cream.

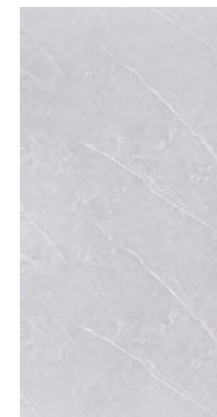

Available in four different colourways

Slate

Porcelain

Cream

metrowall

02 matte

Here we've taken away the reflective nature of the surface and provided a matte overlay that brings a real touch of class to your walls. The classic Carrara and bold Calacatta give a light and airy feel whilst the greys of Granite and Cosmic offer an alternative classic look.

Available in four different colourways

Calacatta

metrowall - Carbon.

The shower and shower screen are available as part of the Carysil bathroom offering.

metrowall

03 embossed

These panels bring another dimension to the range with their tactile embossed finish.

The designs selected are brought to life by the addition of a subtle overlay which complements the pattern itself. From light through to dark - Cement, Grey and Carbon are lightly patterned whereas the striking appearance of Linen could give a unique finish to your home.

TAG

tongueandgroove

Fitting more than one panel on a wall?

Why not try **metrowall TAG**, our unique click system. Our special tongue and groove allows for simple alignment of two edges to ensure a clean flush fit.

Each panel has both edges machine profiled – one with the 'tongue' and one with the 'groove'. When one panel is fitted the second panel is simply offered together at a slight angle and the join is perfectly aligned.

Where panelling is more than a 2 panel 'L' or 3 panel 'U', **TAG** is the perfect solution for a flush finish.

Sealant can be applied behind the panels on the joint line or in the joint itself. Colour matched TopSeal gives a neat finish and can help disguise any minor visible joint line.

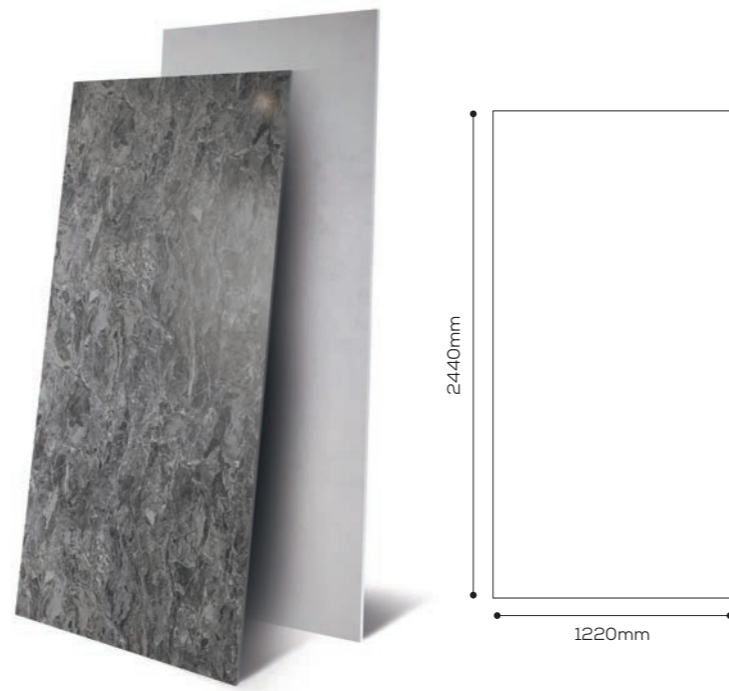

metrowall tongueandgroove - Linen

specification

Each panel measures 2440 x 1220 x 4.8mm. **metrowall** can easily be cut on site using standard woodworking tools and no re-sealing is required.

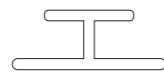

Bonding to the walls can be achieved using our combined adhesive and sealant which can also be used in combination with our range of décor matched trims.

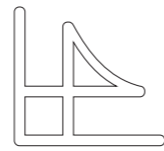

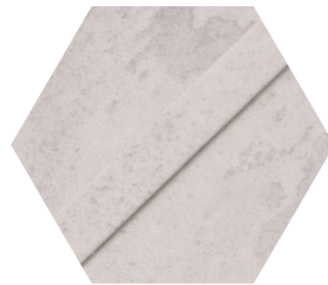

trims

A full suite of trims is available in co-ordinating décors to ensure your chosen colourway flows throughout. Internal and external corners keep the joint neat and will also help to compensate if your walls are not completely square. The 'H' joint plays a similar role if you are putting two panels side by side.

Finally – to tidy up ends, the end cap is the trim of choice. For some installations trims may not be needed. The cut edge of **metrowall** is completely waterproof and can easily be trimmed and profiled or just sanded to a tidy finish. Similarly, two straight edges can be butted together while the panels are being bonded to the wall.

Choose the modern solution for your waterproof areas, and choose style through technology.

100% waterproof & easy to clean

metrowall panels are 100% waterproof, with a high-performance surface and specially manufactured core. You can be safe in the knowledge that your wall panels will not swell or otherwise deteriorate.

Quick and easy install

You will save yourself hours of tiling, reducing costs and getting to the finished result quicker. Panels can be installed in a matter of hours, and don't require specialist skills.

Stylish and long lasting

metrowall panels are easy to look after and will keep their superb finish a long time. The range of panels we offer will fit any style of property, and will bring your unique style and ideas to life.

Lifetime warranty against material and manufacturing defects

Carysil UK is committed to sustainability and the need to minimise our impact upon the world. Our commitment to excellence and the environment extends across all areas of our business as demonstrated by our ISO 9001:2015 certification for quality management and our ISO 14001 certification for environmental management.
