MAKING  
LIGHTING  
SIMPLE<sup>™</sup>

# Welcome

At Sensio we pride ourselves on providing premium products matched with a flawless execution and service. All of our lighting solutions are designed and developed right here in the UK, where we can constantly strive to create new concepts to brighten people's lives. Always pushing to pioneer new technology that seamlessly illuminates customers' homes, our passion is making lighting both intelligently simple and beautiful.

We hope to inspire your space with the power of lighting and thank you for partnering with us at Sensio.

*M. Mansley*  
Managing Director

# Our promises to you...

## Making lighting simple™

Making Lighting Simple™ - one of the defining principles by which we live and breathe. Everything we do, whether it is in the design of our products, our customer service or how we communicate, we strive to always have Making Lighting Simple at the core. If it's not simple for you, our customer, we find another way until it is.

## Market leading innovation

We place our focus on doing things a little differently. We are dedicated to designing and developing new and innovative lighting solutions that meet various design requirements. Our high quality range of products offer the very latest LED technology and features to work in harmony with customer's bathrooms. With our own in-house Product Development Team, we have the ability to not only work closely with customers to design products we know they need, but also innovate and lead the way in creating first to market, patented products.

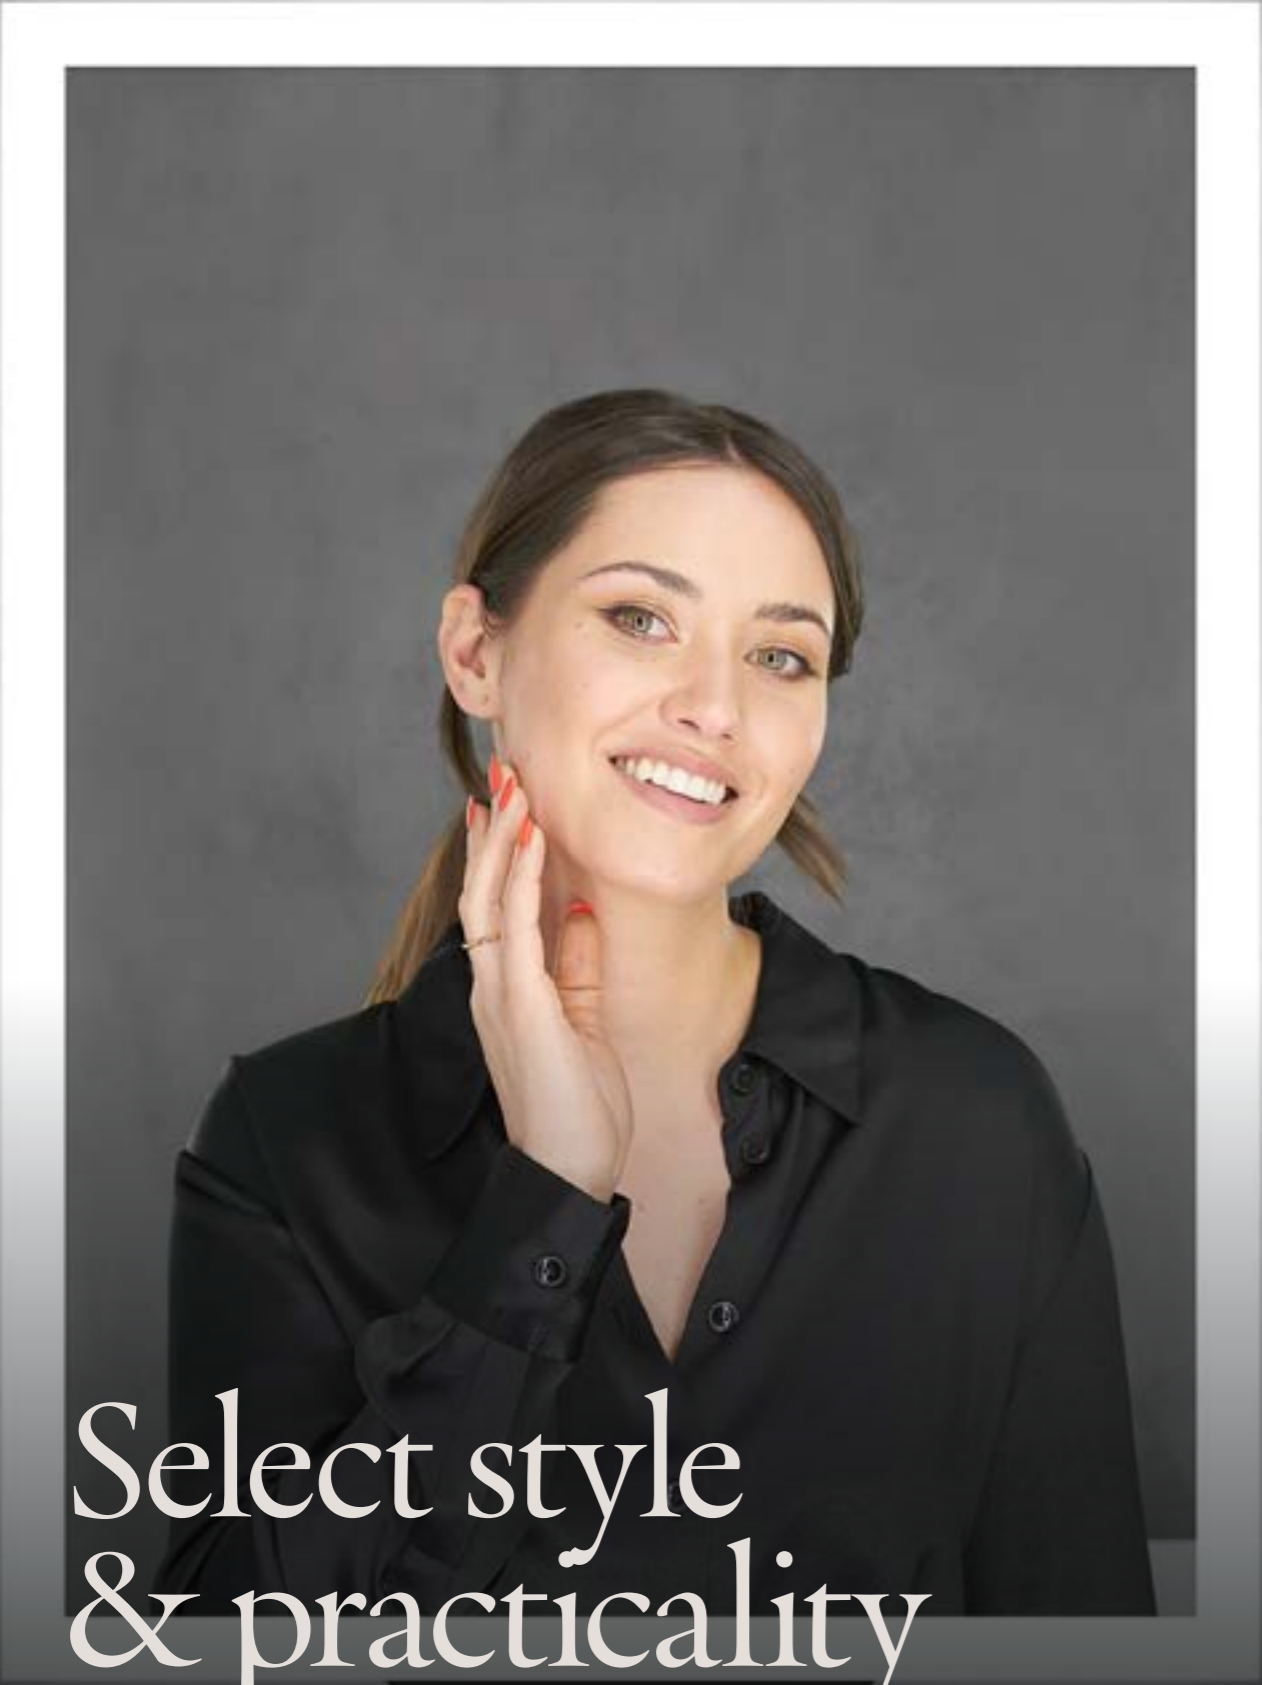

## Extraordinary service

We're here to offer our exemplary service levels to every single customer. Whether that's a quick resolution to your email query, ensuring your orders get to you on time and in full or proactive communication and exceptional account management, we're committed to offering extraordinary service at every point.

# Select style & practicality

Front lit vs backlit

## Illuminate your routine

### FRONT-LIT MIRRORS: PRECISION & CLARITY

Front-lit mirrors are designed for task-focused illumination, making them ideal for makeup application or shaving. With high Colour Rendering Index (CRI) lighting, they provide accurate colour representation, ensuring flawless results in any routine. The direct, even light eliminates shadows, enhancing visibility.

## Elevate interior ambience

### BACKLIT MIRRORS: ATMOSPHERE & AMBIANCE

Backlit mirrors create a soft, mood-enhancing glow, adding warmth and depth to the bathroom environment. Designed to provide ambient lighting, they contribute to a spa-like atmosphere while maintaining a contemporary aesthetic. This subtle illumination is perfect for unwinding in the evening, offering a sophisticated touch that enhances the overall convenience and comfort of the space.

# Complement your design

It is important to select the right LED colour temperature to not only match the bathroom interior colours and textures, but also to suit the mood and purpose of the bathroom.

Sensio's range of illuminated LED mirrors and cabinets are packed full of features. These are detailed on each product page. As standard, the full range is IP44 rated for safe installation in the bathroom. Many also feature an integrated demister pad, simple control and colour temperature changing illumination - the benefits of which are all outlined in the following section.

## Single colour, simple choice.

For a no-nonsense, reliable lighting solution, single-colour lights offer simplicity without compromising on quality. As an entry-level option, they provide consistent, high-performance illumination that enhances any bathroom design

Cool White

Natural White

## TrioTone® Selectable, 3 light temperatures

TrioTone®

A Sensio trademarked concept first introduced in 2017, TrioTone® provides a 3-in-1 lighting choice in one light fitting or illuminated mirror. These products allow the option to select the colour temperature without having to replace the whole fitting, but also within mirrors featuring this technology, allow the owner to select the light temperature to suit the time of day, ambience and their personal preference.

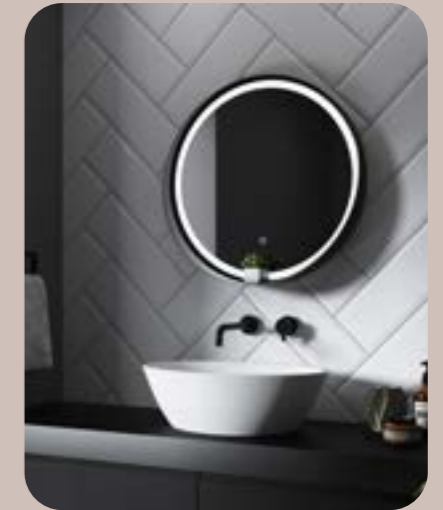

Sensio TrioTone® lights and mirrors can be set to either warm white, natural white or cool white and can be found via the TrioTone® icon throughout this brochure.

Warm white (3000K)

Natural white (4000K)

Cool white (5000K)

## CCT Adjustable, any tone, any time

CCT

Correlated Colour Temperature (CCT) is a concept that provides seamless transition through the full spectrum of temperatures ranging from warm, through to natural and then to cool white light. This allows you to mimic outside lighting conditions with precision - a feature that has been scientifically proven to have a positive impact on our health.

Different colour temperatures in a room have a broad range of effects and functions. For example, cool light settings offset dark tones used throughout the rest of the bathroom to create a balanced ambience. Warmer lights provide relaxing hues for a calming presence, while natural light is perfect for performing tasks, thanks to its neutral palette.

3000K Warm

6000K Cool

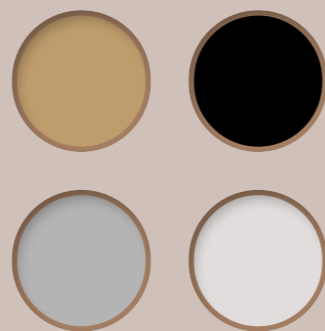

# Innovative design

Our expertise and industry knowledge is an integral part of our business with our in-house product development and design team based here in the UK. To us, every detail makes the difference and we're not satisfied until each product is finished to the highest standard.

A number of our LED mirrors, cabinets and lights carry Registered Design Rights. This means as we strive to continually bring innovative and exciting products to the market, our valued partners can be assured of having access to products they won't find elsewhere.

## Demister pad

Integrated demister pads are an ultra-thin layer, mounted on the back of the mirror glass. When activated, they gently warm the adjacent portion of the mirror to eliminate condensation formation and clear the glass.

## Built-in speakers

Integrated speakers bring a seamless audio experience to the bathroom, enhancing the space with high-quality sound. Whether creating a calming atmosphere for relaxation or adding energy to a morning routine, built-in speakers eliminate clutter while complementing a sleek, modern design.

## Built-in shaver socket

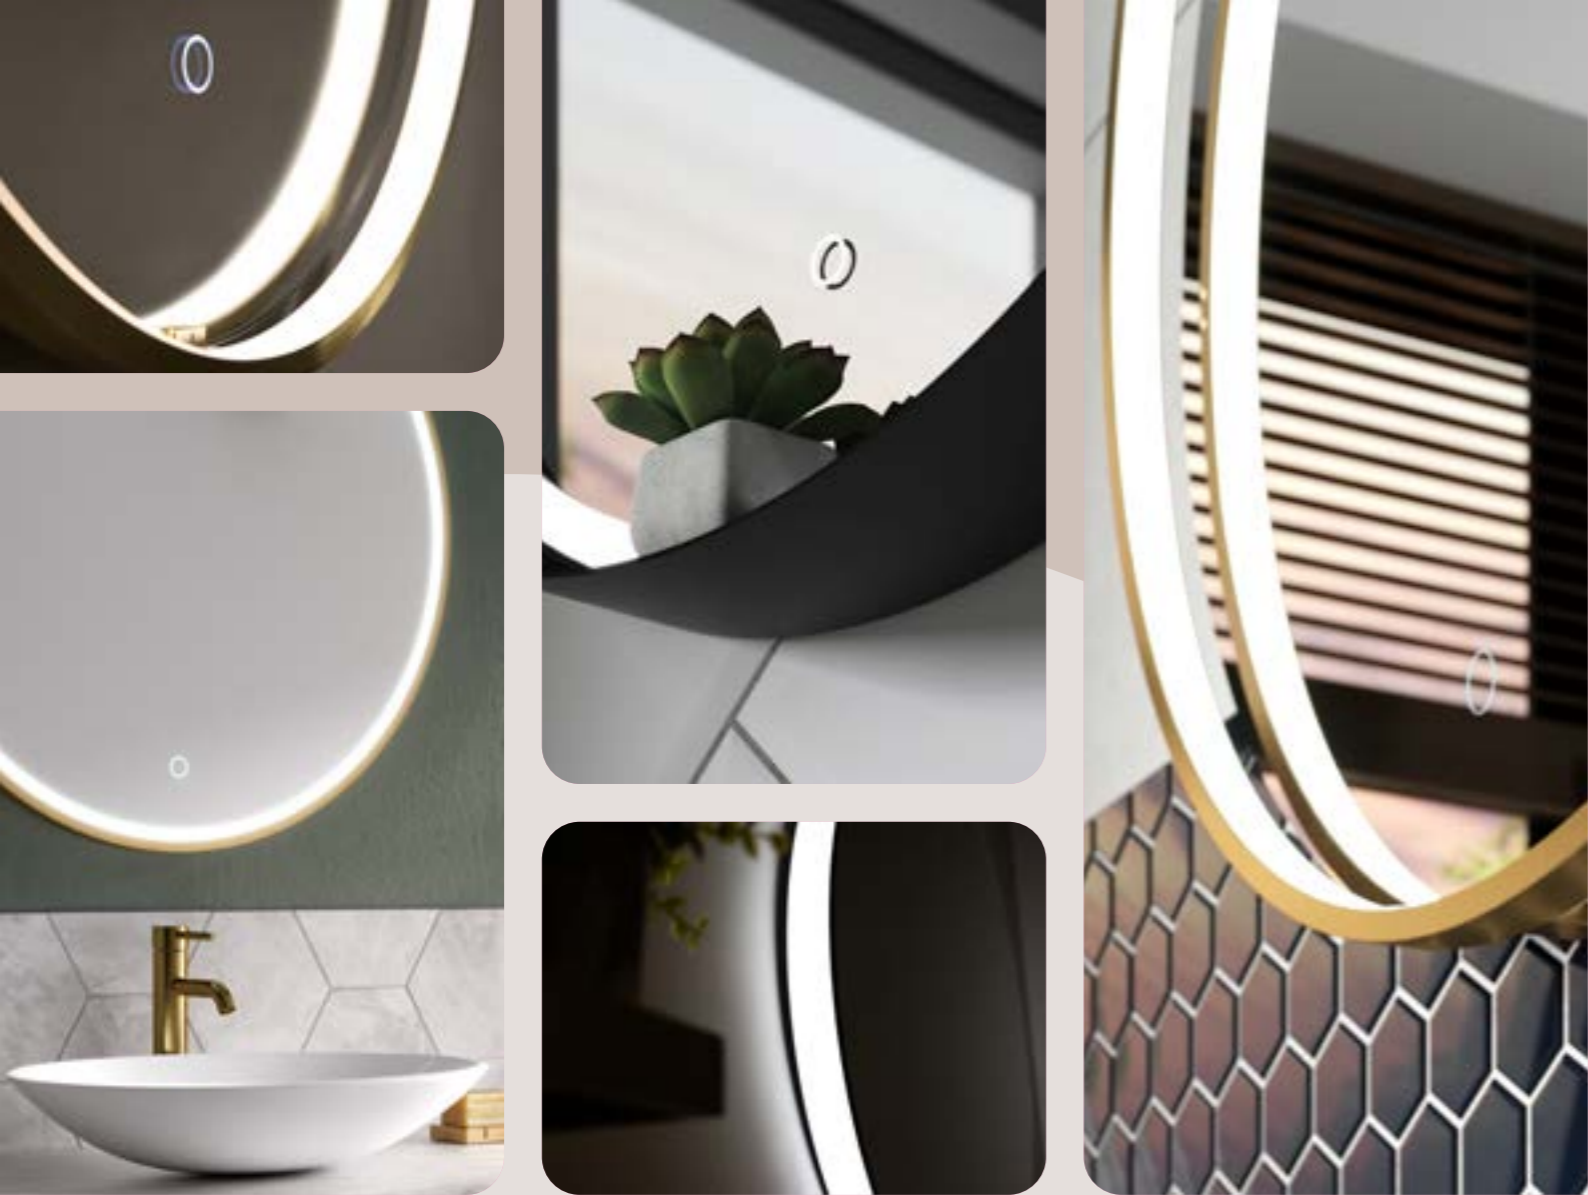

A built-in shaver socket provides a discreet and practical power source for electric shavers and toothbrushes, ensuring a streamlined and clutter-free bathroom design. Designed for both convenience and safety, it removes the need for external adapters.

## Sensors

Sensors are incorporated seamlessly into the glass surface and activate the lights with a simple tap. Or IR sensors are hidden within the frame to control the lights with a wave/hold of the hand.

# Illuminated mirrors

Illuminated mirrors elevate a bathroom's design, offering perfect task lighting while creating a refined, high-end aesthetic. Their seamless integration enhances both form and function, transforming everyday routines into a luxury hotel-like experience.

### RECHARGEABLE BATTERY LIGHT

- Natural light (4000K) offers a well-balanced and neutral brightness
- Perfect illumination for inside cupboards, drawers or under shelving
- Retro fit design with self adhesive magnetic plates; no electrical installation required
- Integrated PIR sensor control
- Auto switches off after 10 seconds, if no movement detected.
- Contains rechargeable lithium-ion battery
- On/off switch to save battery capacity
- 6 months battery power; based on 2 minutes of usage per day
- USB charger cable included

# Polar IP65

## COB LED FLEXIBLE STRIP

- Provides a completely uniform light line with no visible LED dots eliminating the need for a profile or cover
- Chip on Board (COB) technology for superior light output
- Excellent thermal conduction resulting in a cool running strip
- 24V allows long runs of light without any light fade
- Supplied with pre-soldered, 1.5m driver connection cables at either end allowing the strip to be cut and both ends used
- Can be cut to length (every 31mm)
- Supplied in a 5m reel
- VHB (Very High Bond) adhesive tape backing for secure installation
- Compatible with Beam, Fino and Linia

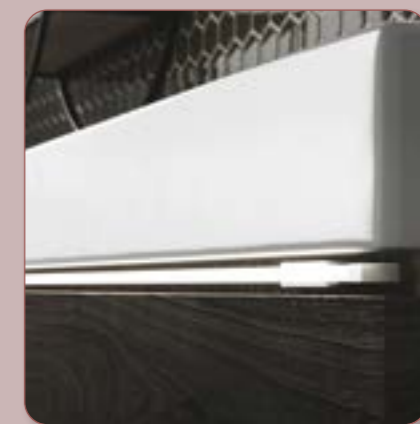

CODE	COLOUR	WATTS	VOLTAGE	LENGTH	LUMENS	DRIVER	RRP

# Radiant IP65

## DIFFUSED LED FLEXIBLE STRIP

- An entirely diffused, bendable, silicone flexible strip light
- No visible LED dots
- Discreet, slimline 4mm width
- Driver connection cables pre-soldered at either end of the strip so two lengths can be used from the same reel if required
- Cut marks are indicated every 50mm on the back of the strip
- Ideal for a flush, recessed finish with a simple push-fit application
- Can be surface mounted with the use of the mounting brackets (10 supplied with 5000mm reels)
- Supplied end caps provide a clean and IP rated finish to cut ends
- Able to navigate around cabinetry

CODE	COLOUR	WATTS	VOLTAGE	LENGTH	LUMENS	DRIVER	RRP

# Titan IP44

## DRIVER

- 30W IP44 rated driver for bathroom installation.
- Slim 16mm depth
- 1.5m cable length
- Supplied with a single IP44 connection, ready to plug & play

CODE	WATTAGE	No. PORTS	RRP
SE499950	30 W	1	£41.12

# Smart Receiver

## WiFi RECEIVER & KINETIC SWITCHES

- Enables wireless & smart control of any mains lighting
- Pair with a kinetic switch (sold separately) for wireless bathroom lighting control
- Use with the free Link Sensio App for advanced installations or to connect to smart devices for voice control.
- Colour adjust and dimming with compatible lights such as the Sensio IP65 downlights
- App and smart home devices
- 200 - 240V mains input
- Maximum load 100W

## Link Sensio

### SMART PHONE APP

The "Link Sensio" app is available to download for free on both iOS and Android smart devices. Use the app, in conjunction with a smart home device, to operate our Titan Smart Kinetic Driver.

# Bathroom ventilation

A fundamental element of practical bathroom design, ventilation prevents moisture buildup and protects against mould, ensuring a healthier environment. Modern ventilation solutions go beyond functionality, offering sleek designs that seamlessly integrate with bathroom finishes for a cohesive and polished aesthetic.

## Drax

### WITH RUN TIMER & HUMIDISTAT

- A more powerful axial fan, for medium sized bathrooms
- Suitable for bathrooms, en-suites and utility rooms
- On/off switch operation
- Adjustable timer, up to 30 minutes
- Automatic integrated humidistat
- SilenTECH fan sound (30dB)
- 158mm x 158mm x 20mm
- Three colours available: black, chrome & white

### FAN INSTALLATION KIT

- For optimum performance, use the Aquilo installation kit to replace old ducting pipes
- Replaceable mesh in vent cover

CODE	DESCRIPTION	RRP
SE975990	Aquilo ducting and vent cover	£24.98

# Installation guidance

The Sensio range of LED illuminated mirrors and cabinets all feature one of three methods for installation.

## BACK BOX MOUNTED

Typically accommodate products with more features, e.g. battery compartments, shaver sockets etc.

## KEY-HOLE MOUNTED

A simple solution for lightweight mirrors

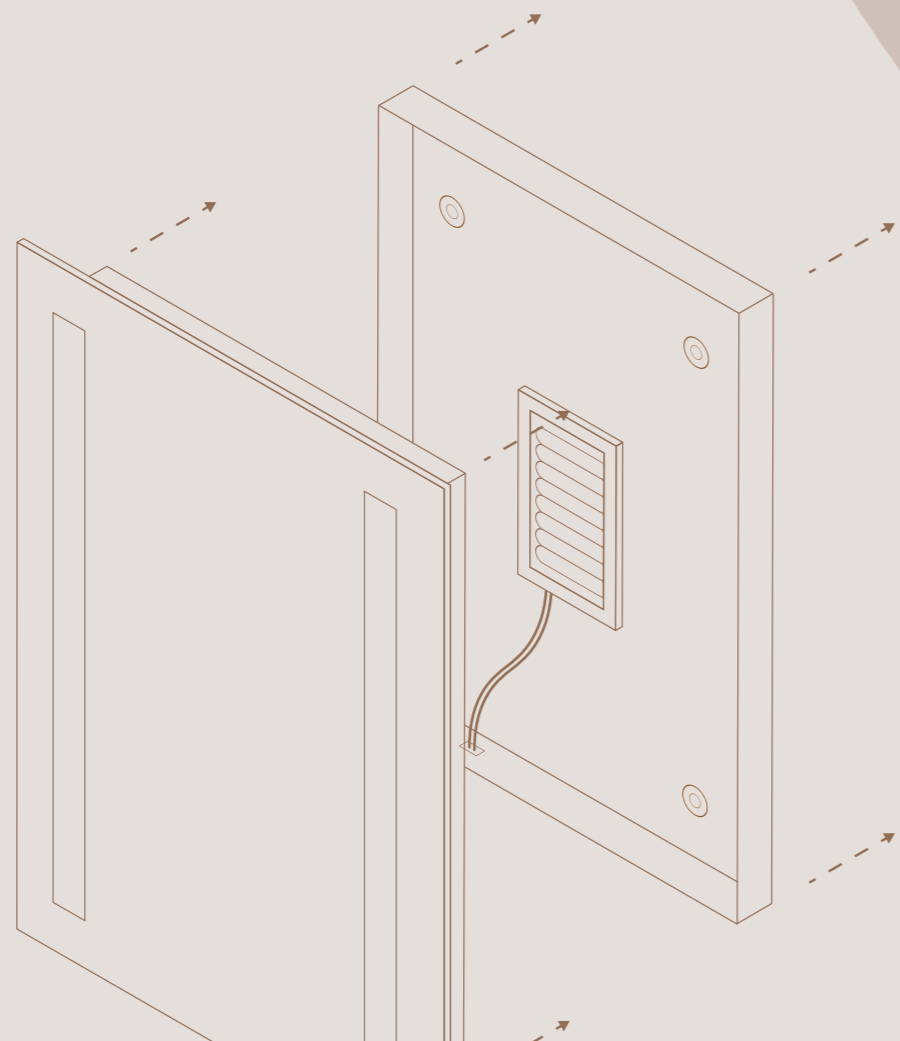

## BRACKET MOUNTED

Ideal for supporting heavier products such as cabinets

Please refer to the individual installation guide supplied for each product for more detailed and specific guidance

## Back box mounted

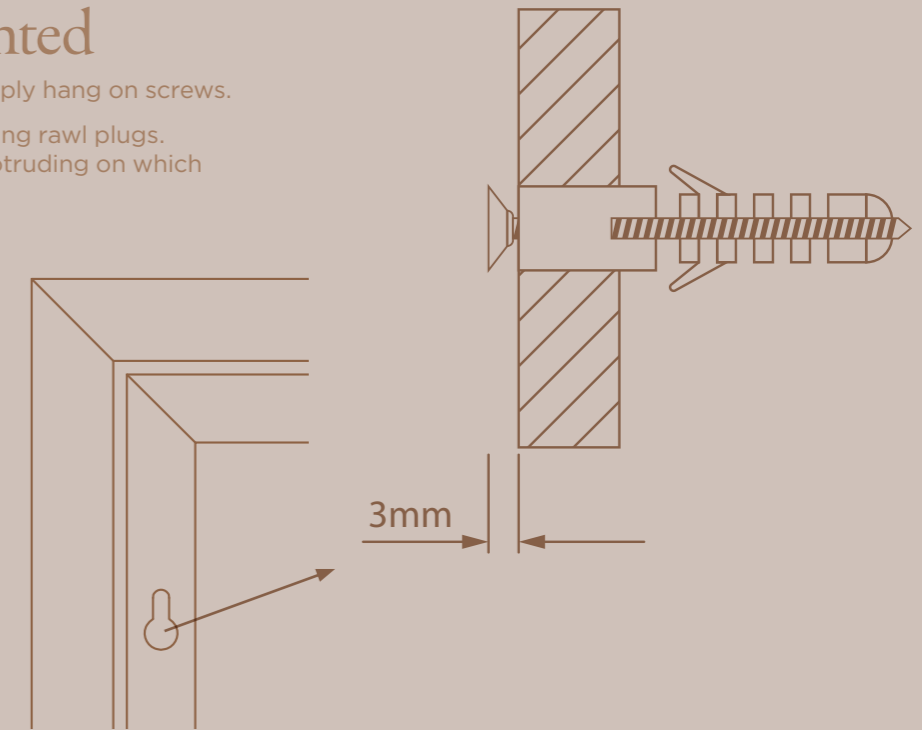

Use the pre-drilled holes in the back box to measure and align where the mirror is to be installed. The back box is wall mounted, housing the components and battery compartments. The mirror then simply slots onto the back box and is secured in place with screws, provided.

## Key-hole mounted

Key-hole mounted mirrors simply hang on screws.

Secure screws into the wall using rawl plugs. Leave approximately 3mm protruding on which to seat the keyholes.

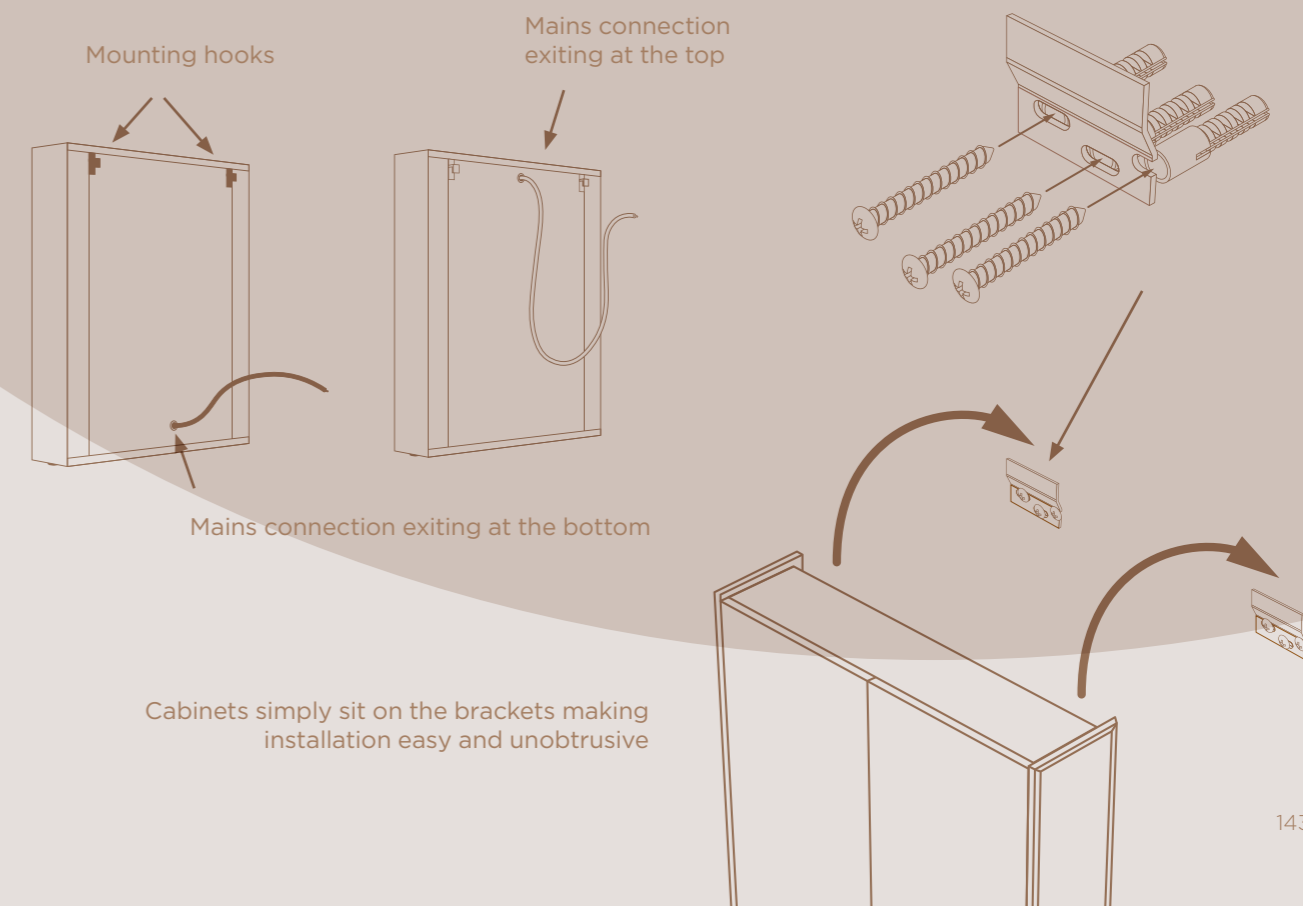

## Bracket mounted cabinets

Cabinets are mains powered and supplied with the connecting cable exiting either at the top or bottom on the rear. The cabinets are supplied with all the fixings required to hang.

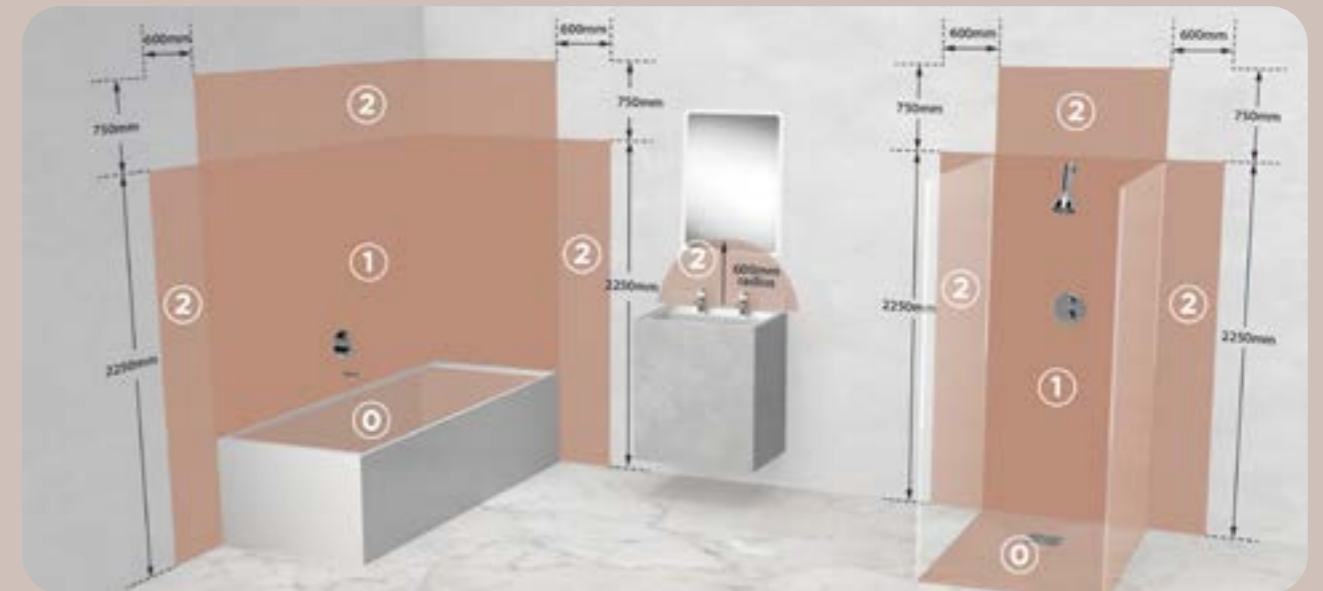

Secure the included mounting brackets to the wall using the screws and rawl plugs. Then seat the cabinet in place on the brackets via pre-installed hooks on the reverse of the unit.

Some mirrors and cabinets within the Sensio range are provided with a connection cable pre-installed. This is indicated on each product page with this icon denoting the length of the pre-connected cable supplied.

# Bathroom zones & IP ratings

The most important factor when choosing bathroom lighting is to ensure that the light fitting is suitable for use in the area it will be installed. Follow the product IP rating and bathroom zone guide to select the right level of protection. The higher the rating, the greater the protection against particles and water ingress.

Using electrical equipment in bathrooms or wet rooms requires attention to safety. The IEE Wiring Regulations (18th Edition) have identified particular zones within the bathroom to indicate what type of electrical equipment can be installed.

## Zone 0

Inside the bath, shower or wet room zone.

This area requires a minimum rating of IP67 and must be low voltage (12V max).

## Zone 1

Up to 2250mm above bath, shower or wet room basin.

A minimum rating of IP44. For 240V fittings, a 30ma RCD must also be used to protect the circuit.

## Zone 2

600mm outside a bath, shower, sink or water outlet.

A rating of at least IP44 is required.

## Outside Zones

Anywhere outside zones 0, 1 and 2, where water jets are not used for cleaning purposes,

the general rules of BS7671 apply.

## DUST PROTECTION

**0**

No protection

**1**

Protected against a solid object greater than 50mm (eg. a hand)

**2**

Protected against solid objects over 12mm (eg. fingers)

**3**

Protected against solid objects over 2.5mm (eg. tools)

**4**

Protected against solid objects over 1mm (eg. wire)

**5**

Limited ingress of dust permitted with no harmful deposit

**6**

Completely protected against ingress of dust

IP65

## WATER PROTECTION

**0**

No protection

**1**

Protected against vertical falling drops of water (eg. condensation)

**2**

Protected against water drops at a 15 degree angle from the vertical

**3**

Protected against sprays up to 60 degrees from the vertical

**4**

Protected against sprays from any angle (eg. splashes of water)

**5**

Protected against light water jets from any direction

**6**

Protected against powerful water jets

**7**

Protected against water immersion (up to 30mins between 15cm and 1m)

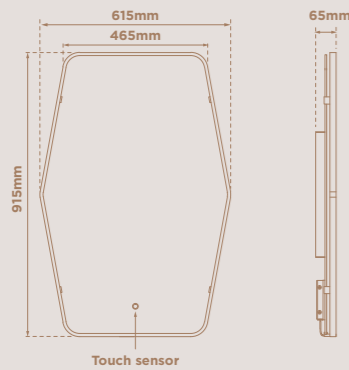

**8**

Protected against long periods of water immersion under pressure

# FAQ

Do you have a question about our products or services? Answers to some common questions can be found here. If you have a question that is not answered here, please visit our website or call us for further information.

**sensio**<sup>®</sup>

MAKING  
LIGHTING  
SIMPLE<sup>™</sup>

## Do you offer a product guarantee?

We offer a 5-year guarantee across all bathroom products. For full terms and conditions, please visit: [sensiolighting.com/pages/sensio-guarantee](https://www.sensiolighting.com/pages/sensio-guarantee)

## How do I set up a trade account?

If you operate a business and would like further details on how to apply for a trade account, please email: [info@sensiolighting.com](mailto:info@sensiolighting.com) or call: **01977 522 020**.

Depending on your business needs, we will either give you contact information to purchase through our distribution network, or create a direct account to purchase directly via the website or via ([orders@sensiolighting.com](mailto:orders@sensiolighting.com)). Qualification criteria must be met to be accepted for a direct account, details of which are specified under our terms and conditions which can be found on our website or by contacting our Customer Experience Team.

## I'm a consumer buying for my own use - where can I buy Sensio products?

You'll find Sensio products stocked nationally through a large number of both online and high street retailers, and bathroom showrooms.

## Do you offer free of charge delivery?

We offer free delivery, usually within 2 days (Monday to Friday), to UK Mainland destinations for all orders placed before 2pm. A minimum order value of £150.00 (excluding VAT) applies for all bathroom products with the exception of mirrors and cabinets. A charge of £9.95 for carriage and handling will be added to all orders between £150 and £250 (excluding VAT) for deliveries within the UK Mainland only. Channel Islands, Isle of Man, Scottish Highlands and Eire will incur a separate delivery charge, determined by the destination and weight of the total order. Please contact our team for further information.

## Where can I find further technical details and installation information?

Head to the product pages of [www.sensiolighting.com](https://www.sensiolighting.com) At the bottom of each product page you will find technical specifications and installation guides.

# Get in touch

We hope you enjoy this Sensio brochure and are inspired to discover how lighting can transform the home. When you have finished with it, please pass it on or recycle it.

# sensio®

## MAKING LIGHTING SIMPLE™

[sensiolighting.com](https://sensiolighting.com)

Please note that the colours in this brochure are as accurate as the printing process will allow, and we recommend that you view a product prior to purchase.

All prices are inclusive of 20% VAT and are Sensio's recommended retail prices. Prices and technical information are correct at the time of print (March 2025) and are subject to change throughout the course of the year without prior notification. Errors and omissions excepted.

For more information on our terms and conditions, please visit [sensiolighting.com/pages/terms-and-conditions](https://sensiolighting.com/pages/terms-and-conditions).
